Freelance */* Web & Application Developer
October 2020 - Present, CO

- Leveraging experience in building client relationships while designing stunning and intuitive applications with the use of React, JavaScript, HTML, and CSS.

JPMorgan Chase & Co. */* Relationship Banker(Series 6 licensed)
February 2016 - March 2020, CO

- Managed a book of business of 150 clients. Implemented a plan to maximize client outreach by using SalesForce to track communication and contacts via phone, email, and handwritten letters on a rolling 3 or 6 months basis depending on need.

- Secured regulatory compliance through detailed review and analysis of data resulting in active prevention of financial crimes.

- Regularly led team meetings; created and presented training material in an effort to meet high regulatory standards, and consistently requested feedback from my colleagues.

Publix / Customer Service Staff
August 2014 - February 2016, FL

- Acted as the United Way fundraising coordinator, responsible for creating and presenting campaign material to 150+ employees to increase pay-period donations resulting in a surpassed store goal by ~$2000.

- Ensured all employees received time to complete the survey by the deadline and boosted morale through the importance of employee input while acting as the Associate Voice Survey coordinator.

- Promoted to a supervisory position within 6 mos of hire for exceptional customer service and knowledge of policy.

Seajas, Inc. / Interaction Designer
December 2013 - May 2014, NC

- Contributed to the launch of a tech start-up by helping to set up a presence with a Google for Entrepreneurs Tech Hub: American Underground, and attending meetings with potential clients and Angel Investors.

- Apprenticed as a frontend developer, learning Javascript and collaborating with Senior Engineers.

US Army MWR / Personal Trainer and Fitness Nutritionist
December 2012 - December 2013, GA

- Developed and implemented personalized fitness and nutrition plans for clients by understanding their specific goals and individual needs.

- Engaged in community outreach by coordinating military fitness events, such as weightlifting competitions and figure competitions.

- Coordinated with Wounded Warrior Project directors to provide modified sports opportunities for Veterans.

Education

Flatiron School / Software Engineering
March 2020 - August 2020

Intensive Full Stack Development program   New York City - Online
